CENTS OF 1793

S=Schwartz T=Taylor G=Gallo *=Plate

Lot No.

1—Sheldon 1 (Crosby 1-A) The Chain Ameri.; wide date. There is a slight bulge or mound under 1 of date, and over U in UNITED. This XF45 is one of the finest known. A 50 grade coin brought $1400.00 in a 1957 New Netherlands Sale, was estimated at $1600.00 in the 1959 Sloss Auction and fetched $1900.00. The Chain variety is in great demand and this example carries a most attractive pedigree; Col. Green, Dr. Sheldon, Mrs. Paschal, Edw. H. Schwartz. Lustrous, olive-brown and sharp. Will attract much attention. (S*) $1350.00

2—S3 (Crosby 3-C) Chain America, the leaning R—it is large, high and leans to the right. A delightful light to medium brown surface, this is ex-Sheldon, Paschal and is about XF-40, almost condition census and seldom found so nice. The increasing demand for quality in general and for Chain Cents in particular will contribute towards record prices for coins such as this. (S*) $950.00.

3—S5 (Crosby 6-F) A well-struck, well-centered specimen of the first of the Wreath Cents. LIBERTY large. There is some pitting at Miss Liberty's nose but the coin has a most attractive color. It is one of the scarcer Wreath Cents; the Sloss gem going to $2500.00 as a result of spirited competition. VF-30 (S*) $450.00.

4—S6 (Crosby 7-F) The Sprung Die. A noticeable bulge runs from the rim to the back of the hair. LIBERTY and date are small. One of the less frequently seen varieties, this VF-35 is, to quote Ed. Schwartz, "A Cent to dream on. A beautiful rich russet, perfectly centered and sharply detailed." Ed should have been a poet or a coin cataloguer! This is from the Philip G. Straus Collection. (S*) $475.00.

5—Another S6. A late state of the die, reflected in both breaks. Almost the equal of the above lot, this VF-30 has a slight edge bruise and some pitting. Worth close to $400.00 (G*)

6—S8 (Crosby 9-G) The Horizontal stem, high triangular bow. An attractive, medium brown. VF-35 (G*) $350.00

7—S8 (Crosby 9-G) Considerably rarer than the 9-H variety which follows. Schwartz, conservative though he was, liked this coin well enough to call it VF-30. It's almost that in our opinion. Ex-Thorson, Steinberger (S*) $300.00

8—S9 (Crosby 9-H) The Horizontal stem, large round bow. A most attractive medium brown, about XF-40 (G*) $375.00

9—S9 (Crosby 9-H) This is a late die state, a heavy crack from rim above C, across A and ribbon ends; another crack from R thru R to lower leaves on right. Ex-Prosky, Blaisdell. VF-25 (S*) $250.00

10—S10 (C-10-I) Fair. This coin got into this collection by losing its way! (S) $40.00

11—S11a (Crosby 11J) Wreath Cent with vine and bars edge; Vertical left leaf, beads far from legend. One of the rarer varieties of the 1793 cents, Rarity 6. This condition census VF-35* is one of the finest known. Its owner valued it at $1250.00

12—S11B (C-11-J) Lettered edge, double leaf. Almost a 20 grade which would make it condition census. Rarity 5. A pleasant medium brown coin, well-centered. (S) $275.00

13—S11C (C-11-J) Lettered edge, single leaf. Sharp enough to be VF-20 but has obverse pitting. Rarity 3. (S) $225.00

14—S13 (C-12-L) The Liberty Cap Cent. This is out of the T. James Clarke Collection where it fetched only $525.00. Previously it had been in the Mehl Collection and was sold to Clarke many years ago at $500.00. The popularity of Large Cents, and particularly of the Liberty Cap pieces, should run this VF-25 one up to at least $750.00

15—S13 (C-12-L) The popular and rare Liberty Cap Cent. A most desirable example of this rare variety, about F-18. (S*) $450.00

16—S14 (C 13-L) Liberty Cap with the bisecting crack from rim thru E, across head to rim just to the right of 3. LIBERTY is bold but the date is weak, a characteristic of this die. This is an F-12, one of the more important of the known specimens. In 1956 the T. J. Clarke F-12 fetched $400.00; worth a lot more today. (S*) $550.00

17—S15 (Crosby 14K) "The aristocrat of the Liberty Cap cents and therefore an aristocrat of aristocrats among the Large Cents" says Dr. Sheldon. The finest piece known, a VF-20, is in the American Numismatic Society where a second 14-K, graded 4, also reposes. Three other specimens have been recorded as 15-7 and 4 grades respectively. Our present offering represents a heretofore unpublished example which takes its place at or near the top of the list. LIBERTY and 1793 are strong. The beading at the top and left is strong. There is some pitting in the field and someone, probably years ago, scratched M behind head and I before throat. The reverse has the raised central part and ONE CENT is characteristically weak. Serious collectors should make suitable efforts to examine this great rarity. It may be graded VF-20* and is valued at $5000.00

CENTS OF 1794

18—S17 (Hays 4, Chapman 4) Head of 1793, tilted 4. Rarity 6 and about a 6 grade. (S) $70.00

19—S18b (H3, C3) Head of 1793. Double chin, edge device of 1794. Charateristic mound at TED caused by a sinking of the die. The Liberty Cap head of 1793 on these cents may be one reason why these are in demand, for type collections undoubtedly. Almost VF-20. (S) $95.00

20—S19b (H2, C2) Head of 1793, double chin, edge of 1794. The stem and point of the leaf following DOLLAR point up. Very rare with a 12 considered Condition Census; this VG-10 is right up there with a most attractive color. Rarity 5. (S) $75.00

21—S20 (H1, C1) Head of 1793. Another rare variety with a 15 considered Condition Census. The obverse is easily 15 but the reverse only about 12. Rarity 5. (S) $120.00

22—S21 (H5, C5) The Flat Pole Variety. One of the best executed designs of 1794. The obverse is 12, the reverse about 10. (S) $120.00

23—S22 (H43, C6) The Bent Hair Lock. A conspicuous loop at lower left corner of the bust. A rich dark brown coin, lustrous. Almost a 35 but for some pitting before the face. The Dupont 35 sold for $65.00. (S*) $65.00

24—S23 (H18, C7) The Standless 4; right ribbon high. Lightly scratched initials on obverse. ONE CENT characteristically weak. A rare variety. R5. VF-20 (S) $95.00

25—S24 (H17, C8) The full cheeks, scarred head variety. Only the N in CENT is weak, a most unusual feature for this variety. Diagonal obverse die crack from rim thru head to rim. A splendid example, XF-45 (G*) $95.00

26—Another S24. Weak strike, looks a lot better than the F-15 we call it. Ex-Emanuel Taylor Coll. $27.50

27—S24 (H17, C8) The full cheeks, scarred head variety. ONE CENT characteristically weak. Obverse 20, reverse 10. (S) $25.00

28—S25 (H22, C17) The wide 79. Uncommon variety, not in the Pearl or Clarke Catalogues. The Sloss VF-30 fetched $90.00. This is not its equal but a VF-25 obverse with the reverse about as good except for a weakness at F AM. This is State a. (S) $95.00

29—S26 (H21, C18) Severed hairs, wide 79. Projection at O in OF joins several die cracks. A splendid, sharp example, XF-45.* $115.00

30—S26 (H21, C18) A sharp, well centered coin with olive-brown lustrous surface. VF-35. (S*) $80.00

31—S27 (H25, C19) The Buckled obverse. A rare variety, not in Dupont, Clarke or Sloss Collections. Seldom seen better than good. This F-15 has sharp LIBERTY and date plus an attractive olive-brown color. Rarity 6. (S*) $175.00

32—S28 (H23, C20) The Ornate Variety. LIBERTY high. An unusually sharp specimen without any weakness. A cameo-like gem, dark even surface. AU-55 (G*) $160.00

33—S28 (H23, C20) Locks end in a vertical line. The reverse is characteristically weak at top. Well balanced, clean looking VF-20. (S) $45.00

34—S29 (H24, C21) High LIBERTY; tailed right ribbon. There is an edge nick near U on reverse. Handsome red-brown cent. VF-25. (S*) $95.00

35—S30 (H17, C22) The Marred field. Called the Amiable Face by Maris. F-12. (S) $16.00

36—S31 (H39, C23) The Second Marred Field Variety. A sharp, well-struck and attractive coin. VF-35 (G*) $75.00

37—S31 (H39, C23) Long fraction bar. Fine-12 obverse, reverse VG-10. (S) $25.00

38—S32 (H26, C11) The up-turned locks. An attractive olive surface. Easily VF-25. (S*) $40.00

39—S35 (H29, C28) Shattered die and slender locks. The hair is shorter, less massive and terminates in seven slender, well-separated locks. LIBERTY is close to the border; the R touching a denticle. There are dramatic obverse die breaks; between E and R making RTY seem very high, another from ear thru front of 4 to rim. Rarity 6 and one of the finest known, ex-Sheldon, Paschal, C. Douglas Smith, Homer K. Downing. The Dupont piece was an 8, Clarke had none, nor did Sloss. I like this coin very much; It is most pleasing, sharp, well-centered and attractive. It is a prize worthy of considerable attention. VF-25. (S*) $400.00

40—S36 (H31, C14) Crowded date, low head. Another rare variety, only about a dozen specimens known. Rarity 6. F-15. (S) $165.00

41—S38 (H41, C24) The third marred field variety. Another rarity 6. Not quite a VG-10 but then Dupont had only an 8! (S) $85.00

42—S40 (H42, C26) Marred Field, sprung reverse die. ONE CENT is bold, most unusual for this die and making it a most desirable specimen. Seldom offered, this rarity 6 is another prize in the Schwartz Collecton (ex-W. C. Blaisdell). An inferior example in a Stack Sale in April 1955 fetched 115.00. This specimen, about VF-25 should create a stir. (S*) $200.00

43—S41 (H19, C9) Truncated hair locks, a twin to Newcomb's #36 pictured in Chapman and recently acquired by this cataloguer in the Holmes Sale. A delightful chocolate brown, XF-40*, possibly the second best known. $175.00

44—Another S41, about VF-20. $70.00

45—S41 (H19, C9) Minute Berries. But for some pitting at head and date this scarce coin would be fine. VG-10 (S) $35.00

46—S42 (H20, C10) Truncated Hair locks; weak OF. An upper range Rarity 5, this VF-30, is out of the famous Henry C. Hines Collection and the fourth finest known. Another prize. (S*) $180.00

47—Another S42. Weakness at TES OF. A rare variety, out of the Sternberg and E. Taylor Collection. VF-20. $120.00

48—S43 (H34, C35) Short bust; weak OF. The break over A, usually found on this die variety is not evident on this specimen. This may be either a new combination of obverse-reverse or it is the reverse die in its earliest state. A similar piece in a 1955 Stack's Auction, VF-20, sold for $75.00. This, too, is VF-20. (S) $85.00

49—Another S43. VF-20. Taylor Collection. $85.00

50—S44 (H33 C36) Same obverse as S43, but cracked from rim thru lower part of 7 and upper part of 1 to lowest lock. Most desired in nice condition; VF-25 (S*) $50.00

51—S45 (H47, C33) Braided hair. A rare variety with 2 F-20's necessary to complete a condition census of the top 6 pieces. This VG-8 has considerable pitting on reverse, but remains a desirable specimen of this Rarity 6. (S) $67.50

52—S46 (H48, C34) Braided hair; crossed E. Date bold. VG-10 (S) $20.00

53—S47 (H6, C29) Braided upper locks; LIBERTY is low; 79 close but 1 and 4 are wider spaced. Another rarity of the 1794 series, R5, this VF-25 is a condition census coin. (S*) $200.00

54—S48 (H8, C30) The most famous of the 1794's, the starred reverse; there are minute 5 pointed stars just inside the border, between the points of the denticles. The condition census of this rarity 6 is 25-25-15-12-10-10. The Schwartz piece is VG-8, ex. D. C. Wismer, W. C. Blaisdell. (S) $120.00

55—S49 (H7, C31) Short bust; closed wreath. Perfect die with a double profile. Lustrous light mingled with darker tones of brown. A VF-35 with an imposing pedigree. Lambert, Sargent, Downing, Warfield. (S*) $67.50

56—S50 (H57, C32) Short bust, hair minutely detailed, detached lower lock. The date is weak and can be seen only at certain angles. However, this rarity 6 is seldom offered. F-12 (S) $70.00

57—S51 (H10, C37) Short bust, longer lower locks. Rarity 5. Fine—12/very good 10. (S) $47.50

58—S53 (H58, C47) The sixth lock is severed; LIBERTY is low. This is one of the rarest of the varieties of 1794, rarity 7, only seven pieces available to collectors, an eighth in the American umismatic Society. VG-10. (S) $200.00

59—S54 (H11, C43) The crooked 7. Rarity 3 but unknown better than XF-40. This VF-20 is ex-Warfield. (S) $50.00

60—S55 (H13, C44) Crooked 7; large berries. Pleasant medium brown. VG-8. (S) $16.00

61—S56 (H12, C45) Crooked 7. A poorly prepared reverse gave this one the name "Office Boy Reverse." Rarity 4, VG-7. (S) $30.00

62—S57 (H14, C46) Pyramidal head, button on cap. A pleasing medium brown, ex-Warfield. VF-25 or better. (S*) $35.00

63—S58 (H16, C39) Thick hair, wide date; right ribbon high. Heavy die crack thru UNIT. Dark VG 10/8. (S) $20.00

64—S59 (H15, C40) Thick hair, wide date; left side of ribbon bow is double cut. Rarity 3. VG-10, reverse a bit better. (S) $20.00

65—S60 (H35, C41) Thick hair, wide date; right ribbon is high. Incusations of wreath appear between hair and LIB. Rarity 4. VF-20. Ex-Brand-Hall-Taylor. $85.00

66—Another S60. Ex-Chatham Coll. Rim bruised, VF-20. $72.50

67—S60 (H35, C41) R4. VG-8 (S) $37.50

68—S61 (H36, C42) Same obverse die as S60; short right stem. Pleasing medium brown, R4. F-12. (S*) $47.50

69—S62 (H49, C51) Heavy, stubby lower lock. Heavy rim break behind hair. R5. VF-25 (G*) Almost condition census. $125.00

70—S62 (H49, C51) An attractive olive-brown, rarity 5, ex-Blaisdell. VF-20 (S*) $95.00

71—S63 (H32, C38) The Fallen 4, date completely re-cut. LIBERTY very high, button-like appendage at lowest corner of cap. Well struck, well centered; grayish steel color. The obverse is almost a 30 but there is some pitting on reverse, particularly at first A in AMERICA. Conservatively, VF-20, R3. (S) $55.00

72—S64 (H46, C48) Shielded hair; fraction bar missing. A heavy break thru D and the buckling of the die has caused ONE CENT to be practically not struck. In demand because of missing fraction bar. A pleasing red-brown with lustrous surface. Almost a rarity 6 coin this example is ex-J. M. Henderson, Sternberg, C. D. Smith. VF-25. (S*) $145.00

73—S65 (H45, C49) Shielded hair; short stems. XF-40 (G*) $60.00

74—S65 (H45, C49) Obverse sharp; reverse weaker especially at ICA and fraction. VG-8 (S) $10.00

75—S66 (H44, C52) Distant 1, heavy figures, double leaf under O in OF. Die break seems to split pole. Obverse well struck, reverse weak with ONE CENT, fraction and ICA barely discernible. Pleasing light brown. Very rare (R7), only 12 specimens known, 3 of which are in ANS leaving only 9 available to collectors. Obverse better than 12, reverse 8. (S*) $135.00

76—S67 (H54, C53) Fine braided locks, large circular curl, marred face, type of 1795. Rarity 3. Light olive-brown, AU-50 (G*) $120.00

77—S67 (H54, C53) An attractive olive-brown, R3, VF-20 (S*) $45.00

78—S68 (H55, C54) The Bisecting Die Break, running diagonally across the head and nose from border to border; a popular variety, always in demand. Well balanced, chocolate brown with unusually sharp reverse. Rarity 6. Easily VF-20, with obverse even better, making it a condition census piece. (S*) $175.00

79—S69 (H50, C55) Five Braided Locks. Small Circular Curl. 1 and 7 recut at upper right corners. A faint cut seems apparent below central curve of 9 (not previously noted). A most pleasing, lustrous coin with chocolate color, sharp. Rarity 4, easily VF-25. (S*) $97.50

80—Another S69. VF-20 or better, ex-Taylor. $65.00

81—S70 (H51, C56) A splendid, example, AU-55* and rare in this top grade. Double leaf under OF and triple leaf under D in UNITED. Die crack between T and Y from rim thru forehead and back of the eye to the cheek. Soft grey and brown. Not quite the coin which fetched $675.00 in the Sloss Sale but not far from it! This prize should attract competition. $550.00

82—S70 (H51, C56) VF-30, but has a reverse edge dent. Ex-Blaisdell. (S*) $55.00

83—Another S70. Pitted, almost VF, better than F-15, ex-Taylor. $30.00

84—S71 (H52, C57) Three short lines, probably from a die injury, cross from the bridge of the nose to the eye. First S in STATES is tipped left. F-20; chocolate, granular surface. (S*) $30.00

85—S72 (H56, C59) The head of 1795 no curl. VF-25 to 30. $52.50

86—S72 (H56, C59) The head of 1795, no curl. Obverse 12/reverse 10. (S) $22.50

CENTS OF 1795

87—S74 (Doughty 68, Clapp-Newcomb 2). Lettered edge, top of 5 almost entirely lost in the bust. Branches terminate in single leaves. A delightful VF-30 with light red-brown surface which Ed Schwartz acquired 20 years ago from old John Boss of Philadelphia. R4. (S*) $175.00

88—Another S74, equally as nice, this one has a dark surface and is cracked thru most of the legend on reverse. VF-30. (G*) $175.00

89—S75 (D67, CN3) Lettered edge, double leaf on right. A popular variety, (the Clarke-Sloss specimen fetched $675.00!) A splendid medium olive-brown, MS60. (G*) $325.00

90—S75 (D 67, CN3) Sharp, well struck, medium brown and most attractive. VF-35. (S*) $135.00

91—S76a (D 66, CN 4) Lettered edge, single leaves, ONE CENT high. Dark steel color, granular surface. Rarity 6, so difficult to obtain. Obverse about a 10, reverse 8. (S) $67.50

92—S76b (D66, CN 4) Plain edge. Sharp XF-40 (G*) $55.00

93—S76b (D66, CN4) Olive-brown; Easily F-12. (S) $12.00

94—S77 (D69, CN5) Plain edge. Five 3-leaf clusters on left branch, ONE CENT central. Injured die resulted in weakness at ST. R4. A lovely XF-40 (G*) $120.00

95—S77 (D69, CN5) R4, medium brown, seldom offered. Ex-Warfield. F-15 (S) $40.00

96—S78 (D70, CN6) Plain edge. The top of 5 barely touches the bust and the full curve of the upper stroke is visible. ONE CENT is central. A delightfully attractive coins with hints of red behind a lustrous medium brown. M6-65* $250.00

97—Another S78, olive brown. AU-50. $125.00

98—S78 (D70, CN6) AMER is weakly struck as is the N in UNITED, otherwise we would have a VF-25. A beautiful head of Miss Liberty. (S*) $25.00

CENTS OF 1796

The Liberty Cap Varieties

99—S81 (Gilbert A, Clapp-Newcomb A) Pole attached to bust; double leaf under N. The fraction bar is slightly bent upwards and the last O in the fraction is too high. AME connected at their feet, N and E in ONE CENT weak as a result of the buckling of the dies. Attractive olive-gray, sharp and well-centered. R3, easily a VF-20 or better. (S*) $95.00

100—S83 (G-E, CN-E) End of Pole connected to bust by die break. Date wide but 6 is closer to 9. AMER touch. Medium to dark brown. Rarity 5 and in demand, as are all of the 1796 Cents. F12 to 15, ex-Warfield. (S*) $95.00

101—S84 (G-D, CN-D) The low 6; triple leaf under AM and under UN. The open mouth variety. Gray-brown with good even surface. R3, F-15 plus. (S*) $60.00

102—S85 (G-G, CN-G). The low 6; triple leaf under AM, leaf distant from F, double leaf under T in CENT. This attractive steel cent is the second rarest of the 1796 Liberty CAPS, being a high Rarity 6, an indication that there are less than 30 known. F-15, ex-R. T. Hoober Coll. Condition census. Superior to the Dupont piece which sold for $90.00 in 1954. (S*) $225.00

103—S87 (G-C, CN-C) Low 6, open mouth; fraction compact with numerator too far right, AME connect, double leaf to left of ONE, triple cluster under T of CENT. There is a small rim extension at 8 o'lock. Medium brown, attractive coin. R3, F-15, ex-Warfield. (S*) $60.00

104—S88 (G-H, CN-H) The pole is long and club shaped at the end, date is evenly spaced and perfectly balanced. The coin is well struck but the surface is eroded. Hair detail is very clear, profile sharp, LIBERTY bold. Rarity 6, F-15, condition census. (S*) $250.00

105—Another S88. Perhaps slightly superior to above, approaching a 20 grade coin. Ex-Taylor. * $300.00

106—S89 (G-K, CN-5) The crowded head, LIBERTY very low and date very high; triple leaf under T of CENT. Clean grayish-brown, R-3, obverse F-15, reverse F-12, ex-Donlon Collection. (S*) $52.50

107—S90 (G-I, CN-I) Similar obverse; double leaf under T. A worn but acceptable example of the rarest Liberty Cap cent of 1796. The reverse is quite clear. Since this is a Rarity 7 cent, it rates attention. G-6. (S*) $70.00

108—S91 (G-F, CN-F) Wide date; double leaf at lower right. This is the T. J. Clarke specimen which I called F-15 back in 1956. The die is worn but the coin is sharp. Easily a 20, possibly even a 25. R3 (S*) $105.00

109—Another S91. Close to VF-25 (G*) $105.00

DRAPED BUST CENTS OF 1796

110—S92 (G-1, CN-1) Close 96,6 leaning right; both branches of the wreath terminate in single leaves. R-3, F12 (S*) $50.00

111—S94 (G-33, CN-26) Hyphenated 7-9; right branch terminates in a double leaf. Wear around edges, but clean and clear. Medium brown and very rare. An R6 which may prove to be an R7. Easily VG-10. (S*) $100.00

112—S97 (G-4, CN-4) High 6; single leaves terminate both branches. A delightful coin with some mottling in color. Slight pitting on obverse but all details are Very Fine. The reverse is unusually sharp. This in a group wherein the reverses are usually weaker. R-3, VF-30, ex-Warfield. (S*) $135.00

113—S98 (G3, CN3) Date slants right; single leaves. An attractive medium-brown with traces of red. OF is weak as is T in CENT. Rarity 4. Except for weakness mentioned, XF-40*. Has been valued at $600.00

114—S98 (G-3, CN-3) Dull dark rough surface with good detail. The reverse has all the detail clear. VG-10 only because of surface. R-4, ex-Warfield. (S) $55.00

115—S99 (G-38, CN-30) Date slants right; single leaves, triple leaf left of CENT. Late state of the die with heavy crack thru B, knot, to rim at 9 o'clock; crumbling at throat. A rare variety in desirable condition. R-7, F-15, condition census. (S*). $250.00

116—S101 (G-24, CN-22) Close, curved date; double leaf at end of right branch, double leaf under O in OF. Shows considerable wear, yet has a flawless surface, sharp lettering and is smooth and apealing. It is about F-12, the reverse certainly so and a rarity 6 coin. (S*) $75.00

117—S102 (G-7, CN-7) Dot-like defects between bust and date; double leaf under O and at end of right branch. An upper range R4 which may go to R5. F-15, medium brown. (S*) $90.00

118—S103 (G-9, CN-8) The LIHERTY cent, the B having been cut like an H. Double leaf under O in OF. A splendid example, this is one of the highlights of the sale. It may well be the finest known and could easily bring a runaway price. AU-55*, medium brown, Rarity 6. This popular variety, always in demand, appeared only as a 25 in the Clarke Sale and a 30 in the Dupont Sale. We anticipate keen interest in this coin and refrain from making any estimate.

119—S103 (G-9, CN-8) The LIHERTY variety; double leaf under O. This is the rare LIHERTY die. The reverse shows wear especially at fraction and UNITED; the obverse is clear and LIHERTY is bold, as is the date. R6, obverse 10, reverse 6. (S*) $75.00

120—S104 (G-10, CN-9) The second LIHERTY variety. Triple leaf under O. This cent was struck from the perfect dies before the cracks appear. The reverse is fine, the obverse almost so, except for the shallowness of the head. Dark brown, free of serious nicks and without edge dents. Superior to the Warfield and Dupont specimens. To call this less than a 12 grade coin would do it an injustice. R3 (S*) $75.00

121—S105 (G-16, CN-16) The double cut 6. Very rare variety of this popular date, rarity 6. Medium brown on a granular planchet. There are possibly 15 or 20 known examples of which this is the second finest, VF-25*. It has been valued at $750.00

122—S106 (G-25, CN-23) Date slants right, 7 and 9 wide, 96 close. The reverse is the F reverse of 1795 found on the rare reeded edge cent. LIBERTY very bold, date weak at bottom. Steel color, upper range of R5 and may prove to be R6. F-12. Superior to Dupont, Warfield or Downings. (S*) $150.00

123—S107 (G-17, CN-17) Date wide and slanting right; double leaf at end of right branch. Only 7 specimens in collectors hands, and one in ANS, the finest being a VF-20. This is a VG-7, ex-J. P. Young, C. D. Smith, Paschal. Rarity 7. A VG-8 in the Chatham Collection sold for $125.00. (S*) $150.00

124—S108 (G-23, CN-21) Widest date; reverse same as S107. Perfect obverse die, well struck and nicely centered. Attractive olive granulated surface. One of the better examples of this Rarity 5. VF-25 (S*) $175.00

125—S109 (G-6, CN-6) Close, curved date; right branch terminates with a double leaf. The obverse is unusually bold, reverse somewhat roughened. Attractive dark steel gray color. R3 VF-25. (S*) $110.00

126—S110 (G5-, CN-5) Close 96, connected by a die crack. L and I are recut. Reverse as in S109. A natural brown cent. F-15. (S*) $45.00

127—S111 (G-29, CN-24) Date leans right, 96 are close. Reverse as in S110. A beautiful cent, second finest known of this variety and probably the finest available to collectors, the top piece being in ANS. Natural dark brown color, well struck and centered. This piece was unknown to Dr. Sheldon when he compiled his Early American Cents. Apparently the information was not given to Dr. Sheldon or it was mislaid for Penny Whimsey still does not list it. Undoubtedly future editions will include this item for it is, in Ed Schwartz's words, "the highlight of the entire collection and rates as an aristocrat of centdom." In his enthusiasm, Ed rated this rarity as XF-40. I will say that Ed was not one to exaggerate and there is justification for this grading. I would be more inclined to call it a 35 which would still put it head and shoulders above the best available 20. No attempt will be made to estimate the value of this item. It should bring well into four figures. (S*)

128—S112 (G-14, C-13) Close 96 connected by die crack; two berries at left loop of bow. Struck at a late stage of the die for ONE CENT is completely missing as a result of die buckling. Medium brown and smooth. The recut L and I are quite apparent. Rarity 6, F-12. (S*) $125.00

129—S113 (G-11, CN-10) Crack thru 17. Evidences of crumbling cause 9 in date to appear as an 8. Wide denominator. An attractive, dark coin, one of the best available of this rare die. Really an R7 coin because 4 of the 6 finest known are impounded in the American Numismatic Society. Realization of that fact makes this F-15 at least the third best available, possibly the equal of the second best. Very likely spirited competition will send this one to record levels. (S*) $300.00

130—S114 (G-30, CN-25) Top of the 6 merges with the drapery and is punched in over the drapery. Upper serif of B is lacking; short stems and imperfect ribbon bows, short fraction bar, wide denominator. Upper range of Rarity 5, ex-Warfield. The Dupont F-12 brought $75.00 in 1954. VF-30 and as such the fourth finest known. Worth a real price! (S*) $450.00

131—Another S114. The Williams-Taylor Specimen. VF-20.* $250.00

132—S115 (G-12, CN-11) High 6, tilted left; wide denominator. The die failed early causing die cracks and weak LIBERTY. Four of the six finest are in the ANS, the condition census including as F-15. This is not quite a VG-10. (S*) $60.00

133—S116 (G-19, CN-19) Similar obverse. The reverse is the type of 1795 which has single leaves at the top of wreath. The reverse is unusually sharp, more so than the Sheldon Plate illustration. A pleasing medium brown coin, this specimen easily F-12 is the fifth finest known and should command a price. Rarity 6. (S*) $150.00

134—S117 (G-13, CN-12) Straight date with figures leaning right; there is no ribbon bow. This very rare variety (R7) is practically always found in poor rough planchets with UNITED usually weakly struck. The best known specimen is F-15. Considering the original handicaps and possibilities this could be justifiably classed as VG-10 and, as such, equal to the fifth finest known. (S*) $135.00

135—S119 (G-15, CN-15) Top of 6 in bust, close date; double leaf under D. A Nichols find coin with attractive red-brown surface. R-3, XF-40. (S*) $120.00

CENTS OF 1797

136—S120a (Doughty 94, Clapp-Newcomb 2) Wide date, reverse of 1796, plain edge. Die failure caused roughness on the obverse and reverse. R-4, F-12. (S*) $30.00

137—S120b (D94, CN2) Gripped edge, otherwise as S120a. F-12 (S) $25.00

138—S121 (D93, CN3) Close date, defective B; reverse of 1796, gripped edge. Struck from injured dies. Easily F-15, probably better considering the dies. (S) $32.50

139—S122 (Not in D, CN 4) Closest date of the year. Usually seen on rough imperfect planchets, this example is very rough, about a 6 grade—but the finest known is only a 15. Rarity 6. $60.00

140—NC-2 (Not in D, CN5) Same reverse as S122; heavy rim break over D ST. In addition to the breaks described by Dr. Sheldon, there is a faint crack from bowknot, through left ribbon, thru left side of U to denticle. Extremely rare. Rarity 8. The top piece a 20 is in ANS. This may be the 15 listed by Sheldon*. Has been valued at $750.00

141—S123 (D106, CN6) Closest date. A Nichols find coin with much red and some brown, very attractive. The Sloss piece sold for $400.00. This uncirculated example should do equally well, about MS-60*. $400.00

142—S123 (D106, CN6) This lovely specimen with olive, brown and red tones is ex-Stickney, Miller, Hines, Fritz, Taylor.* AU-55 $300.00

143—S125 (Not in Doughty, CN8) Compact date, last 7 high, R nearly touches hair; very wide denominator. Heavily swollen obverse resulting from sunken die is characteristic. This Rarity 7 has a condition census of 20-7 with the 20 in Dr. Sheldon's Collection. The sharpness of F and A on this F-12 is unusual because the swelling tended to obliterate these two letters. Apparently the third best known, ex-C.D. Smith (S*) $250.00

144—S126 (D-107, CN-9) Both tops of last 7 touch drapery, defective B. Dark gray color, edge dents. VG-10 (S) $15.00

145—S128 (D-109, CN-11) Both points of last 7 touch drapery and 1 touches the hair; M is cut over an E. Frequently poorly struck on the right so that even in the best specimens the right side is very weak. This is the perfect obverse, scarcer than the cracked die obverse usually found. We must use the left side of this coin to grade it a VF-30. (S) $60.00

146—Another S128. The cracked die obverse. Except for a gouge over R1 this would be about XF-40. (G*) $75.00

147—S129 (D108, CN12) There is no visible break behind the Hair Ribbon. Dr. Sheldon stated he had seen 2 examples like it and knows of just 7 specimens; one in the ANS, one in his own collection. Mrs. Paschal owns the third, number 4 is with Doug Smith, 5 Stephen Early. This is the 6th and 7th is at present unknown Homer K. Downing who lacked only 6 of the 301 collectibles did not own this S129. Rarity 7, VG-10. (S*) $135.00

148—S130 (D99, CN13) Same obverse as S129 but always seen with the heavy curved break behind the hair ribbon; broken left ribbon end. An attractive olive-gray cent, VF-30, ex-Blaisdell. (S*) $60.00

149—S131 (D98, CN14) Curved break behind hair ribbon, late state; stemless wreath which creates a demand for this variety. Unusually sharp, easily VF-20, the reverse certainly 25. (S*) $95.00

150—S132 (Not in D, CN15) Defective B, no break behind hair ribbon; stemless wreath. An extremely rare variety, not in Clarke, Dupont or Sloss Collections. R7 VG-8, still a condition census piece which seldom appears. (S) $80.00

151—S133 (Not in D, CN16) Perfect B, no break behind hair ribbon; stemless wreath. Another rare one, not in Clarke or Sloss. Duponts was a VG-8. This is an attractive mottled brown coin, sharper than our VF-20 would indicate, but so graded because of pitting opposite face and on reverse. One of the better known examples of this rare variety, probably the second best. Ex-C. D. Smith. (S*) $140.00

152—S134 (D95, CN17) Period before throat; small figures in fraction. Weakness at UNITED because of obverse die swelling. Ex-Hall, Brand, F-12. (S) $40.00

153—S135 (D100, CN18) The upper serif of B is missing, corner of 7 touches drapery. There are 16 leaves and 6 berries left and 19 and 6 right (reverse of 1796); crack from top of C in AMERICA, another from leaves near I almost connected to it. A lovely medium brown example, rarity 4, not in Clarke or Sloss Collections. A specimen almost as nice fetched $325.00 in April 1960. MS-60* $350.00

154—S135 (D100, CN18) A lustrous, olive specimen, MS-65, ex-Brand, Taylor. Rarity 4. $425.00

155—S135 (D100, CN18) 7 touches drapery, R almost touches hair; six berries on either side of wreath. Lustrous olive-brown, sharp VF-25. Scarce (S) $65.00

156—S136 (D102, CN19) Wide date, 97 close; 4 berries on right branch. Counterstamped twice on obverse, J. A. MIRICK and J.A.M. on reverse. Still an attractive coin, VF-20. (S) $40.00

157—S137 (D101, CN20) Wide date, 97 close; sprawled ribbon ends, six berries left, five right. This variety usually struck from a heavily rusted reverse die. VF-25. (S) $57.50

158—S138 (D103, CN21) R and 7 touch hair and bust respectively. Swelling on upper right reverse, causing obliteration. Ex-Taylor, VF-30. $52.50

159—S138 (D103, CN21) R and 7 touch hair and bust respectively; Swelling on upper right reverse, causing obliterations. VG-10. $20.00

160—S139 (D105, CN22) R touches, 7 does not, heavy crack from border at left to hair; fraction bar is connected to right ribbon and the left stem is almost connected to U. A common, popular variety. Ex-Warfield (S) Strictly fine 15. $20.00

161—S140 (D104, CN23) The dies appear to have been perfect and little, if any, swelling is apparent. Schwartz and Doug Smith believe that no swelling exists on this specimen. The fullness of OF gives substance to this thought. An attractive reddish-brown coin, VF-20 (S) $50.00

162—S141 (Not in D, CN24) Compact date 7 distant from drapery; right stem points to C. Traces of injury to the die are evident on the reverse. A heavy crack appears from rim thru left ribbon and stem as well as bow to the C in CENT. An unmentioned (in Sheldon) break is at neck at rim. Well centered and attractive, this F-15 is hard to get. Extremely hard to get better than fine. A condition census coin. (S) $100.00

163—N-C5 (Not in D, CN25) Very wide denominator; ribbon bows detached, imperfect. Poorly struck, LIBERTY partially double-struck. VG-8, condition census, rarity 7. Worth $150.00

164—S142 (D96, CN26) Compact date, 7 imbedded in drapery; right stem points thru C. Scarce variety, not in Clarke, Dupont or Sloss. Finest known is a 25 in the American Numismatic Society. This VG-8 is a condition census coin of importance, rarity 6, ex-Warfield. (S) $80.00

165—S143 (D97, CN27) The last of the 1797's. 7 imbedded in drapery; stemless wreath, highly prized. This F-12, ex-C. D. Smith is a rarity 7 coin; light brown. A condition census coin. (S) $120.00

CENTS OF 1798

166—S145 (D115, Clapp 2) Large close date, fraction bar connected to right ribbon. Usually flatly struck and weak, so this specimen with all details well struck is desirable. VG-10 (S) $15.00

167—S146 (Not in D, C3, C4) The top of the hair is unfinished, a little triangular island appearing below left corner of E in LIBERTY. From the late state of the obverse die (state B) and not as strong as the sharp reverse. This is ex-Empire Collection and was very conservatively graded a 12. Really, 15 would do it more justice. (S) $90.00

168—S146 (Not in D, C4) The hair is unfinished and the second wave shows only a little triangular island near the left bottom of E. Rarity 6. Obverse 8, reverse 12. $50.00

169—S147 (D116, C5) Fraction too far to the right, the final O almost touching the right ribbon. The second rarest of the 1798's, only about 15 pieces known. Ex-Warfield sale, F-15. (S) $90.00

170—S148 (D117, C6) The Horned 9 Variety. An attractive coin with orange, red and brown hues which Dr. Sheldon likes to call "autumn coloring." This common variety has a splendid pedigree; Hines, Sheldon, Smith, Schwartz. AU-50, far superior to the Dupont-35 which fetched $60.00. (S) $125.00

171—S149 (D114, C7) Large date, 98 distant. Rarity 7, this G-7 is a condition census coin. $100.00

CENTS OF 1799

217—S188 (D137, C1) The 1799 over 1798. One of the highlights of this sale, this coin has a terrific pedigree. It is the Hall-Brand-Pierce-Barnhart coin which sold in the Sloss sale at $2300.00. Back in 1945 it sold for $2,000.00. The obverse is just as nice as the Proskey-Hines specimen (VF-35)* which sold in the Sloss sale for $3500.00, except for an attempt to remove a flaw at the base of the neck. The reverse is VF-25. It is being sold for the account of its most recent purchaser. $2500.00

218—S189 (D138, C2) The Perfect date, LIBERTY evenly spaced. 179 close but the 9's are closer, the second 9 a bit high and a trifle larger and heavier than the first 9. A rich lustrous light chocolate color, unusual in the 1799 cents and making it a most desirable coin. The date is strongly struck and all figures are bold—also unusual for this rarity. The reverse is especially attractive and the coin as a whole is from among the elite of the few choice pieces of the date. This is ex-Dietz, Crosby-Mayfield, VF-25. It fetched $400.00 in 1946 (Dietz) and $560.00 in 1958—but that was before the Sloss Sale! The Sloss 50 grade, finest known, set a record of $10,500.00 but of course this present offering is not in that class. This specimen approaches the Downing VF-30 which sold for $875.00 back in 1952. (S*) $800.00

219—Another S189, perfect date. VF-20 (G*) $425.00

CENTS OF 1800

220—S190 (D140, CN1) Overdate, 1800 over 1798. The curl just above the back of the shoulder is missing; the left side of the final A is recut. The incusations under the chin indicate that this may be the Downing specimen. Rarity 5, VF-20. (S) $120.00

221—S191 (D139, CN2) ERT is a bit weaker because of a reverse die failure; there is just the beginning of a mound at the fraction which has a long bar. Almost a VF-20 with an attractive greenish-brown patination. Almost a condition census coin and popular because of the 1800 over 1798 over-date. (S) $67.50

222—S192 (D141, CN3) Compact overdate, both points of overcut 7 show; long fraction bar slanting down to right. VF-25, rarity 4. $150.00

223—S192. The second overdate. Ex-Blaisdell, R.4. VG 10 or better (S). $42.50

224—S193 (D142, CN4) The third overdate, 1800 over 179 (or 1799) RTY always seems weak. Fraction bar is a little shorter, high above 100, square at left and pointed at right. The first inside pair of leaves on the right are stemless. Rarity 5, seldom offered with a condition census including F-15. Onlyabout VG-10. The Dupont F-20 sold for $110.00 (S) $45.00

225— S194 (D143, CN5) Compact date, 1800 over 179. Always in demand as a type piece, this XF-40 is one of the better known examples. No reverse rim break and rarer than usual offering with the break. $175.00

226—S194 (D143, CN5) The 1800 over 179 overdate. There is a rim break below the fraction. In demand as a type. VG-10 (S) $45.00

227—S194 (D143, CN5) Compact over-date, 1800 over 179. Popular type piece. (G*) F-18. $70.00

227a—S195 (Not in D, CN6) Compact overdate, 1800 over 179; thin fraction bar long and well over the 100. LIBERTY is usually weak. Seldom offered, this Rarity 6 should bring a price. None in Clarke, Dupont or Sloss, VG-7 or 8. (S) $60.00

228—S196 (D145, CN7) The fourth overdate, 1800 over 179, wide, the last O high. Second pair of leaves inside right are stemless. Very short fraction bar. The commonest overdate of the year, popular as a type. The obverse is not quite F-15, the reverse easily VF-20. (S) $37.50

229—S197 (D146, CN10) The popular Q variety, the break in the center of the O making it look like a Q. Well struck but pitted before face. Diagonal scratches thru NE. F-15. (S) $25.00

230—S199 (D149, CN12) Perfect date, thin unfinished ciphers. Heavy reverse crack from rim above left top of D, thru DE bottom of T and under IN; heavy break over F in OF. This reverse was obviously struck from shattered dies. A sharp and extremely rare specimen. This was once in Downing's Collection and later belonged to C. Douglas Smith. Mr. Schwartz called this XF-40, and we can understand his enthusiasm, perhaps a 35 grade would be more accurate. In any event, Dr. Sheldon indicates that the only better specimen is in the American Numismatic Society Collection. Then the census drops to a 20 grade. Should bring a fancy figure (S*) $400.00

231—S200 (D148, CN13) Thin, unfinished ciphers; the long-stemmed berry (second outside on right). A most attractive coin, especially well struck and scarce with a perfect reverse. Easily VF-25 or better. Clarke, Dupont, Downing, Newcomb, Sloss, none had one half so nice! (S*) $125.00

232—S201 (Not in D, CN14) Thin, unfinished ciphers; stemless leaves (second inside left and first inside right). There are no choice specimens of this variety, the best known being a 20 grade, only 15 specimens in all being accounted for. This G-6 is the sixth best and is a condition census coin. Ex-Breen, Paschal. (S) $100.00

233—S202 (D150, CN15) Thin, unfinished ciphers; heavy break behind curls causing obliteration of STATES. LIBERTY and date are bold. VG-10. (S) $25.00

234—S203 (D151, CN16) Diagonal "saw-tooth cut" in the die in front of the nose. Date wide and curved, the top of 1 practically touching the top of the lowest curl. Incusation of point of bust and date on reverse from S across OF. VF-25. Ex-Taylor.* $70.00

235—S203 (D151, CN16) There is a diagonal "saw-tooth cut" in the die in front of the nose. Date wide and curved, the top of 1 practically touching the top of the lowest curl. Incusation of point of bust on reverse from S across OF. F-12 (S) $32.50

236—S204 (D153, CN17) Wide date, impressed denticles thru BER and TY. Long fraction bar; ME touch; lumps at top of E and R and trace of a lump at left top of M. ONE CENT weak. An attractive olive-brown example of this Rarity 6 coin. F-15, ex-Blaisdell, a condition census coin. (S) $100.00

237—S205 (Not in D, CN18) Wide Date, period before neck, blank lower curl. Rarity 5. VG-10. (S) $40.00

241—S209 (Not in D, CN22) Widest date 1800 bold, as is LIBERTY. Die sunken to right of Y. Corrosion upper left quarter of reverse, reducing an othewise 25 coin to F-15. Ex-Blaisdell, Rarity 5. (S) $65.00

242—S211 (Not in D, CN24) LIBERTY and date evently spaced, last O a little high. Die crack from L to hair, swell above point of bust, UNITED badly shaped, VF-25 (G) $62.50

243—S211 (Not in D, CN24) Reverse F-12 or better, obverse not quite that good although date and LIBERTY are very bold. (S) $30.00

244—S212 (Not in D, CN25) Chips out of die at rim between the two ciphers and also under the last cipher. Long heavy fraction bar. C in CENT has apoint at center of inner curve. Rarity 4, VG-10 (S)$37.50

CENTS OF 1801

250—S219 (D156, N6) The famous Three Errors. The left stem of the wreath is missing, the fraction reads 1 000 instead of 1 100 and the U in UNITED was cut wrong and appears as II. Rarity 3. Except for weakness at ES OF this would be an F-12, VG-10 (S) $45.00

251—S220 (D157, N7) Pointed first 1. Fraction 1/000. Medium brown, well-centered. An attractive F-15, rarity 4. (S) $60.00

258—S225 (D172, N1) 1 touches hair, the only obverse variety of 1802 on which this occurs. Numerous denticles around date. Rarity 4, VF-30 (G) 55.00
